

### PRIVACY AND CONFIDENTIALITY POLICY AND PROCEDURE

Policy Code	CAP001.01
Person Responsible	Director
Status (Draft/Released)	Released
Date Last Updated	16 March 2020

#### 1.0 PURPOSE AND SCOPE

To ensure that management of clients' personal information meets all relevant legislative and regulatory requirements.

This policy and procedure applies to current and potential clients, their carers and family members.

#### 2.0 RISK

The primary risk to privacy and confidentiality arises from the collection, storage and sharing of client information. Access by non-authorized persons may expose clients to risk. Safe storage and access policy protects clients from abuse and exploitation. This policy addresses these issues.

There is a risk that information will be shared inadvertently and without the intention to do harm. Information may be unintentionally disclosed by careless use of tablet- or phone-based software, shared with a client's supporters against the client's wishes, or disclosed to peers on the assumption that the information is publicly known. Cultural assumptions around sharing information are diverse and change rapidly. Social media platforms may allow clients to be identified. This risk may be minimised by:

- raising staff awareness of privacy and confidentiality
- ensuring consent is obtained before gathering data (including audio and photographic data)
- ensuring that consent is specific to the use of data, and that consent is current
- encouraging clients to provide feedback and complaints about the use of their information.

These issues are addressed in this policy.
